12/2/2021	How to Cut Your Vendor Due Diligence Process in Half ▲

Gathering our vendor's due diligence is one thing – understanding what we read as we review it is entirely different. In this session, you will get to learn the key elements to examine in each document and gather techniques to explain results to the board.

We offer specific instructions for reviewing various vendor documents, including:

- SOC Reports (in 15 minutes or less)
- Financial Statements
- Business Continuity Plans

Fill out the form to watch the recording and learn how to see what your due diligence documents are telling you as well as how to recognize the "fluff" that can be ignored.
