What's The Deal??

ALL ABOUT THIRD PARTIES

What is
this Third
Parties
thing?

Third
Parties
vs.
Vendor?

Third
Parties vs.
Third-Party
Users?

Why did you
add this
feature in
Tandem?

Who can
access
these?

4

What is a Third Party?

ALL ABOUT THIRD PARTIES

The term "third party" is used to describe the relationship the organization has with an external entity, such as:

- Vendors
- Regulators
- Emergency Services
- Law Enforcement
- Utility Providers
- Government Agencies
- Local Media
- Other Stakeholders

5

Third Parties in Tandem Products

- **Audit Management**
- **Business Continuity Plan**
- **Incident Management**
- **Vendor Management**

*(Referenced in **Risk Assessment & Tasks**)*

6

ALL ABOUT THIRD PARTIES

“If a business process is dependent on a vendor, then this vendor is *more than likely* to be managed.”

-Tandem

- Business Continuity Plan
- Incident Management
- Audit Management

10

Why We Added this Feature to Tandem?

ALL ABOUT THIRD PARTIES

- The old way caused confusion for vendor managers when entities were added to the vendor list from another product.
- Now, these external relationships can be added as third parties and optionally included or excluded as part of the vendor management program.
- This feature was requested from our last KEYS Conference

11

Who can Access Third Parties in Tandem?

ALL ABOUT THIRD PARTIES

- Global Admins
- Product Admins
 - Audit Management Admin
 - Incident Response Plan Admin
 - Vendor Management Admin
 - BCP Admin
 - BCP Edit Responsible

12

Third Parties vs. Vendors

ALL ABOUT THIRD PARTIES

Third Party

- External entity with whom you conduct business.

Vendor

- Third Party you manage Contracts and Due Diligence Documents on.

“All Vendors are Third Parties, but not all Third Parties are Vendors.”

Who can Delete Third Parties in Tandem?

ALL ABOUT THIRD PARTIES

- Global Admins
- Product Admins
 - Audit Management Admin
 - Incident Response Plan Admin
 - Vendor Management Admin
 - BCP Admin

15

Third Parties vs. Third-Party Users

ALL ABOUT THIRD PARTIES

Third Parties are external entities with whom you conduct business

Third-Party Users are people who work with your organization and need access to Tandem, but are not employees of your organization.
